TERM 3 WEEK 7 NO. 7
Principal: Drew Green

Principal's Message

A busy week this week with our school concert! The teachers and kids have been working really hard to get things as ready for the big nights as they can. I look forward to seeing you all there.

We had a visit from **Kyogle Community Food Bank** recently who expressed an interest in helping to support our Breakfast Club program with a variety of different products. Previously cereal and toast with a spread were all that was on offer on different days.

Since the new items have started I have been approached by two mums who were concerned about the amount of sugar, in particular the amount the new Belvita Breakfast Biscuits contained. My immediate reaction was to take the biscuits away to which I had many responses saying that they should stay included keeping hungry kids fed.

To this end I'm going to name the new and old items and the average of total sugars (natural and added) per 100g. This will also enable you to Google the items if you want information on other ingredients that make up the product.

This can be followed by a conversation with your child letting them know what you approve of them eating and a note with that same information sent to me so I can hand the note on to our Breaky Club Team and they can monitor who has what because they know all the kids.

- Gullón No Sugar added Breakfast Biscuits made from wholegrain **1.4g per 100g**
- Belvita Breakfast wholegrain biscuits **20.9g per 100g**
- Kellogs LCMs Golden Joys **29.2g per 100g**
- Uncle Tobys o&g Chunky Oatmeal **15g per 100g**
- Natural sugars in donated fruit •Uncle Tobys muesli bars **18.5g per 100g**
- Kellogs Corn Flakes **8.1g per 100g**
- Kellogs Rice Bubbles **8.7g per 100g**
- Vegemite **24.9g per 100g**
- Jam **64.6g per 100g**

The last 4 items are the old regulars and we've had no associated behavioural fallout that we're aware of.
